

## □ Help us evaluate the impact of Trade4SD!

As the project approaches its final stages, we invite you to take part in our **Impact Evaluation**. This assessment aims to understand how effectively the project has met its goals, contributed to more sustainable trade practices, and impacted its key stakeholders.

We kindly ask you to review **three of the main outputs** of Trade4SD, which form the basis of our evaluation. You can access them here:

□ [TRADE4SD Key Outputs - Google Drive](#)

Once you've had a look, please take a few minutes to complete our **impact assessment questionnaire**. Your feedback – especially regarding the three **Policy Papers** – is crucial to understanding the real-world impact of the project and shaping future strategies.

Thank you for your time and support in making Trade4SD even more impactful!

## □ Trade4SD Final Events - Celebrating 4 years of project □

We are proud to announce a series of events to mark the culmination of four years of research, dialogue, and collaboration on sustainable agri-food trade and the SDGs.

These events will bring together global and local stakeholders to discuss the project's findings, share experiences, and explore ways to carry our results forward.

**It's a moment to reflect, connect, and celebrate the progress we've made together.**

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 101000551
